Database Management System Project

Online Banking System

Group members:

This project is submitted by group 3

Our team consists of the following members as follows:

Gitika Yadav -	IIT2019219
Sanskar Patro -	IIT2019205
Eshan Vaid -	IIT2019230
Udgam Shah -	IIT2019186

Title of the project: Online Banking System

Abstract of the project:

The project is aimed at creating an Online Banking System for customers. It should be an online application that can be accessed throughout the organization and outside as well with proper login provided. Upon verification, users should be provided with requisite account details such as account balance, last 5 transactions etc. Common online banking facilities like money transfer should also be accommodated in the system. Make necessary assumptions as and when required and state them clearly.

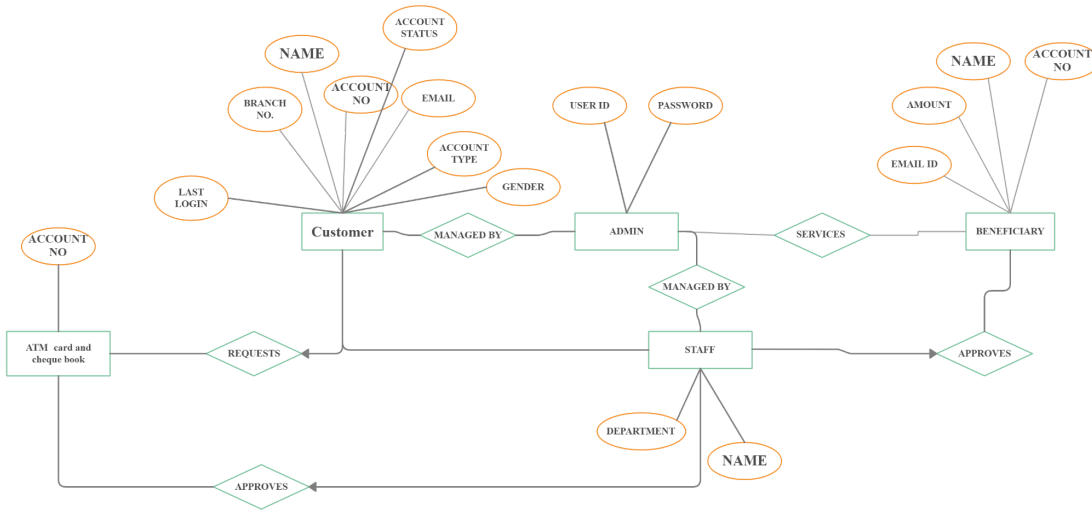

Technologies Used:

- ❖ XAMPP Server
- ❖ Frontend: HTML, CSS
Backend: PHP
- ❖ Database: MySQL

This report contains:

- Introduction
- Abstract of project
- Technologies used
- Functional components/use cases
- ER Diagram
- Use case diagram
- User interface
- Normalization of database
- How to install and run

ER Diagram:

Use Case Diagram:

Functional components of the project:

Admin

- Add a new customer
- For creating a new customer assigns customer details like name, dob, address, contact, nominee, gender, user-name/Password/type of account, etc
- Edit an existing customer details.
- Delete existing customer details.
- Add a new staff member
- For creating a new staff member assigns staff details like name, dob, address, contact, date of joining , salary, gender, etc
- Edit an existing staff member details.
- Delete an existing staff's details.
- Change password
- Log out of admin account

Customers Module

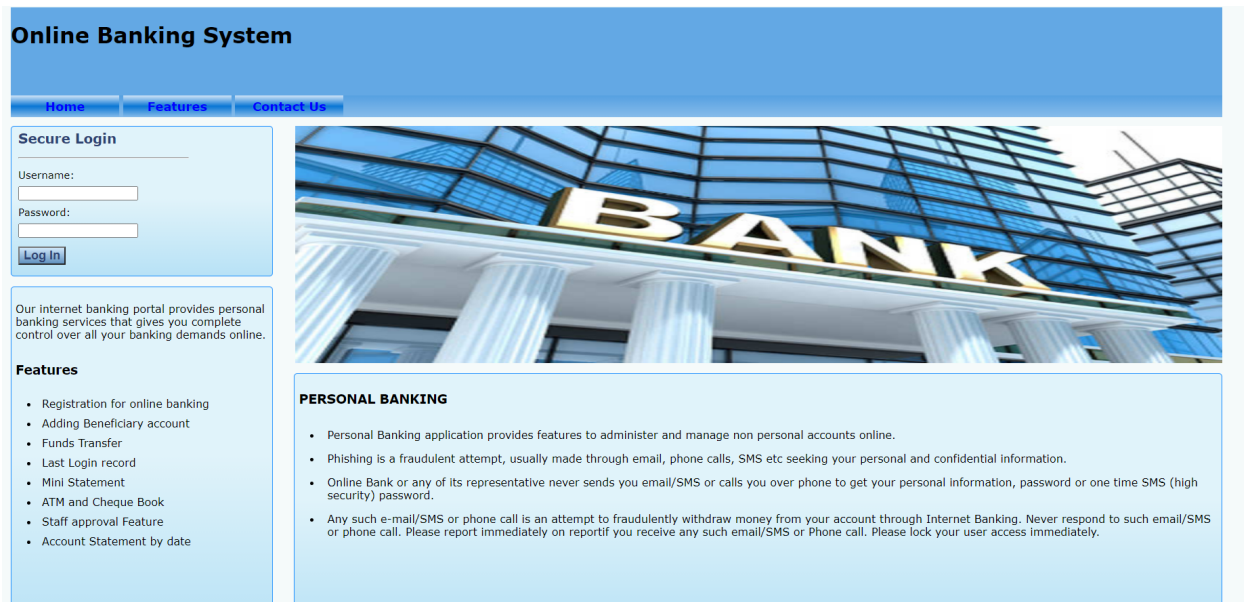

- Login of Customer
- View his/her Account summary
- View his current account balance
- View a mini account statement
- View account summary by date
- Add beneficiary
- View added beneficiary list
- Funds transfer to another account
- Request for Cheque Book/ATM
- View his personal details provided
- Change password
- Logout from the account

Staff

- View staff account details
- Approve the beneficiary requests
- Approve ATM generation requests
- Approve Cheque Book requests
- Change account password
- Log out from staff account

Web application and user interface:

The main web interface looks like this and is meant to cater the needs of the customer

The screenshot shows the 'Online Banking System' login page. It features a blue header with the title and navigation links for 'Home', 'Features', and 'Contact Us'. On the left, there is a 'Secure Login' section with input fields for 'Username:' and 'Password:', and a 'Log In' button. Below this, a text block states: 'Our internet banking portal provides personal banking services that gives you complete control over all your banking demands online.' Underneath, a 'Features' section lists several services: Registration for online banking, Adding Beneficiary account, Funds Transfer, Last Login record, Mini Statement, ATM and Cheque Book, Staff approval Feature, and Account Statement by date. On the right, there is a large image of a modern bank building with a 'BANK' sign. Below the image, a 'PERSONAL BANKING' section contains a list of security-related information and warnings.

Our internet banking portal provides personal banking services that gives you complete control over all your banking demands online.

Features

- Registration for online banking
- Adding Beneficiary account
- Funds Transfer
- Last Login record
- Mini Statement
- ATM and Cheque Book
- Staff approval Feature
- Account Statement by date

PERSONAL BANKING

- Personal Banking application provides features to administer and manage non personal accounts online.
- Phishing is a fraudulent attempt, usually made through email, phone calls, SMS etc seeking your personal and confidential information.
- Online Bank or any of its representative never sends you email/SMS or calls you over phone to get your personal information, password or one time SMS (high security) password.
- Any such e-mail/SMS or phone call is an attempt to fraudulently withdraw money from your account through Internet Banking. Never respond to such email/SMS or phone call. Please report immediately on reportif you receive any such email/SMS or Phone call. Please lock your user access immediately.

This is the login window of our online banking system. Filling up the required credentials we will be forwarded to below image.

Customer Account summary:

The screenshot shows the 'Customer Account summary' page. It has a blue header with the title 'online banking system' and navigation links for 'Home', 'Features', and 'Contact Us'. A welcome message 'Welcome Gitika yadav' is displayed. On the left, there is a sidebar menu with sections: 'Accounts' (Accounts summary, Mini statement, Account statement), 'Fund Transfer' (Add Beneficiary, View added Beneficiary, Transfer Funds), 'Requests' (Issue ATM card/Cheque book), and 'Profile' (Personal Details, Change Password, Logout). The main content area displays account details in two boxes: 'Account No: 42', 'Branch: KOLKATA', 'Branch Code: K421A' and 'Balance: INR 500.00', 'Account status: ACTIVE', 'Last Login: 2021-05-11 06:54:00'.

Account No: 42

Branch: KOLKATA

Branch Code: K421A

Balance: INR 500.00

Account status: ACTIVE

Last Login: 2021-05-11 06:54:00

The customer login interface will look like above image and can view the account details as well as make requests, fund-transfers and check pr

Add beneficiary:

The screenshot shows the 'Add Beneficiary' form within an 'online banking system' interface. The header includes 'Home', 'Features', and 'Contact Us' tabs. A sidebar on the left lists navigation options under 'Accounts', 'Fund Transfer', 'Requests', and 'Profile'. The main content area displays a 'Welcome Gitika yadav' message and the 'Add Beneficiary' form. The form contains four input fields: 'Payee Name', 'Account No.', 'Select Branch' (a dropdown menu with 'Kolkata' selected), and 'Ifsc Code'. An 'Add Beneficiary' button is located below the form.

Payee Name:	<input type="text"/>
Account No:	<input type="text"/>
Select Branch:	<input type="text" value="Kolkata"/>
Ifsc Code:	<input type="text"/>

Add beneficiary will ask the customer to add account details of the beneficiary account.

Transfer funds:

The screenshot shows the 'Transfer Funds' form within the same 'online banking system' interface. The header and sidebar are identical to the previous form. The main content area displays a 'Welcome Gitika yadav' message and the 'Transfer Funds' form. The form contains two input fields: 'Select Beneficiary' (a dropdown menu with 'Isha dey' selected) and 'Enter Amount'. A 'Transfer' button is located below the form.

Select Beneficiary:	<input type="text" value="Isha dey"/>
Enter Amount:	<input type="text"/>

The customer can only transfer funds if:

- 1) The user account should have more than 500 bucks in his/her account
- 2) The user should make minimum transaction of 100 bucks

Personal details:

The screenshot displays the 'online banking system' interface. At the top, there is a blue header with the text 'online banking system' and a navigation bar with links for 'Home', 'Features', and 'Contact Us'. Below the header, a welcome message 'Welcome Gitika yadav' is shown. On the left side, there is a sidebar menu with categories: 'Accounts' (including Accounts summary, Mini statement, and Account statement), 'Fund Transfer' (including Add Beneficiary, View added Beneficiary, and Transfer Funds), 'Requests' (including Issue ATM card/Cheque book), and 'Profile' (including Personal Details, Change Password, and Logout). The main content area is titled 'Personal Details' and contains two columns of information. The left column lists: Name: Gitika yadav, gender: Male, Mobile: 08800935124, Email: muskaandps@gmail.com, and Address: H.NO 2602/16. The right column lists: Account No: 42, Nominee: Meenakshi, Branch: KOLKATA, Branch Code: K421A, and Account Type: savings.

Mobile: 08800935124	Branch: KOLKATA
Email: muskaandps@gmail.com	Branch Code: K421A
Address: H.NO 2602/16	Account Type: savings

Staff interface:

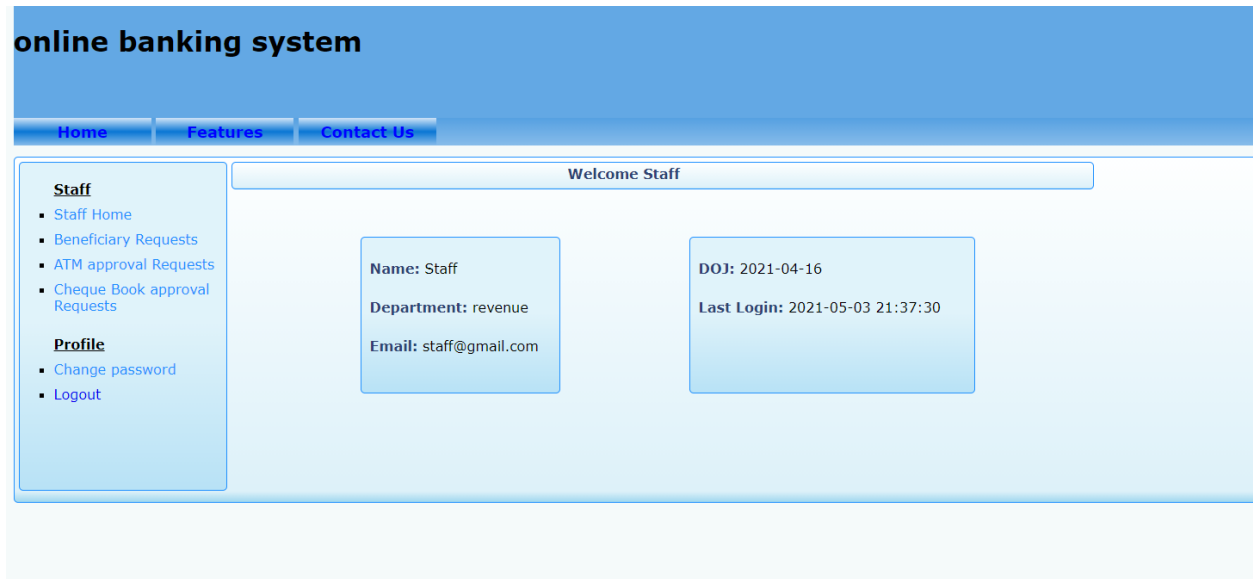

The screenshot shows the 'online banking system' staff login interface. It features a blue header with 'online banking system' and a navigation bar with 'Home', 'Features', and 'Contact Us'. The main content area is titled 'Staff Login' and contains a form with fields for 'Username:' and 'Password:', each followed by a text input box. Below the input boxes is a 'Log In' button.

Staff Login

Username:

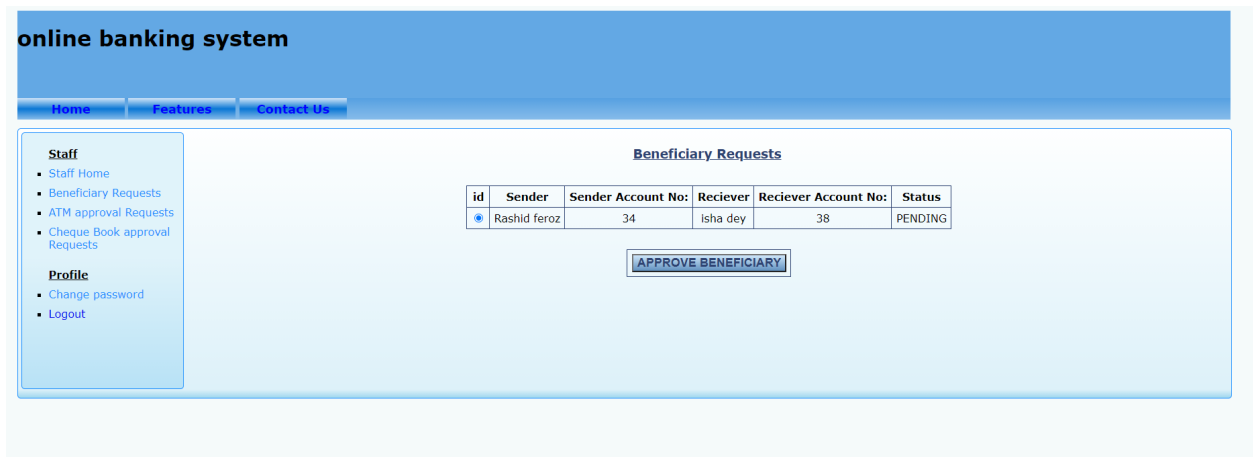

Password:

Upon navigating to localhost/onlinebankingsystem/staff_login.php we will be able to see the following login page.

The above image shows the staff interface who can see his/her details as well as approve requests of customer.

Approve beneficiary:

Approve beneficiary provides staff members to approve the pending beneficiary transaction requests made by customers.

Approve ATM request:

APPROVE REQUEST

Approve cheque book request provides staff members to approve the pending check book updation requests made by customers.

Change password:

The screenshot shows a web interface for an 'online banking system'. At the top is a blue header with the text 'online banking system'. Below the header is a navigation bar with three tabs: 'Home', 'Features', and 'Contact Us'. The 'Features' tab is currently selected. On the left side, there is a sidebar menu with two sections: 'Staff' and 'Profile'. Under 'Staff', there are links for 'Staff Home', 'Beneficiary Requests', 'ATM approval Requests', and 'Cheque Book approval Requests'. Under 'Profile', there are links for 'Change password' and 'Logout'. The main content area is titled 'Change Password' and contains three input fields labeled 'Enter old password', 'Enter new password', and 'Enter password again'. Below these fields is a 'Change Password' button.

This allows a staff member to change his/her accounts' password.

Admin interface:

The screenshot shows a web interface for an 'online banking system'. At the top is a blue header with the text 'online banking system'. Below the header is a navigation bar with three tabs: 'Home', 'Features', and 'Contact Us'. The 'Features' tab is currently selected. The main content area is titled 'Admin Login' and contains two input fields labeled 'Username:' and 'Password:'. Below these fields is a 'Log In' button.

The admin login provides the admin to login and forwards him/her to the below image

Database Normalization:

First Normal Form (1NF):

- Data is stored in tables with rows uniquely identified by a primary key
- Data within each table is stored in individual columns in its most reduced form
- There are no repeating groups

The primary key in our database is id or account number which is self incremented and generated on creation of a new account, the value and is unique for each user.

	id	name	gender	dob	nominee	account
e	34	Rashid feroz	M	1993-12-30	ramu	savings
e	35	Deepak rajwar	M	1990-12-26	ramu	savings
e	36	Shailesh kumar	M	1993-06-26	ramu	savings
e	37	Ravi nandan	M	2021-05-06	ramu	savings
e	38	Isha dey	F	1990-12-26	ramu	savings
e	39	sunny kumar	M	2015-01-14	ramu	savings
e	40	Pankaj kumar	M	1996-02-18	Deepak	savings
e	41	Sharique hassan	M	1993-12-26	ramu	savings
e	42	Gitika yadav	M	2021-05-13	Meenakshi	savings

The data is in its most reduced form and there are no repeating groups.

As you can see in our database the columns are unique. The values are id/account number, name, gender, dob, nominee, account type, address, mobile number, email, password saved as encryption, branch, last login, account status.

Second Normal Form (2NF):

- Everything from 1NF
- every non-prime attribute should be fully functionally dependent on prime key attribute. That is, if $X \rightarrow A$ holds, then there should not be any proper subset Y of X , for which $Y \rightarrow A$ also holds true.

All the values name, gender, dob, nominee, account type, address, mobile number, email, password saved as encryption, branch, last login, account status are the non prime attributes since id is our primary key.

All our non prime attributes depend only and only on the prime key attribute being the id. Had we stored the nominee contact details in the table as name, contact number, and address of the nominee itself they would have depended on the nominee a non prime key. However currently all our values depend only and only on the customer id/ account number of the respective customer.

Thus there are no partial dependencies.

Third Normal Form (3NF):

- Everything from 2NF
- No non-prime attribute is transitively dependent on prime key attribute.
- For any non-trivial functional dependency, $X \rightarrow A$, then either –
 - X is a superkey or,
 - A is prime attribute.

We can add more branches to our system thus each city can have multiple branches having multiple ifsc codes thus it ifsc is not directly dependent on the city rather the customer account number.

Hence satisfying the third normal form.

Thus our database is normalised and hence verified

Steps to install and run:

1. Download and set up a XAMPP or similar environment. LAMP can be used for ubuntu systems.
2. Start the Apache and MySQL servers.
3. In the _inc/dbconn.php file, type the username and password of your phpmyadmin setup in the appropriate places.
4. Open phpmyadmin and create a new database named bank_db.
5. Use the bank_db.sql file to import the database tables.
6. Copy the project folder to the htdocs/ directory in your xampp folder. Rename the project directory to online bank or whatever you deem suitable.
7. Now, navigate to localhost/<PROJECT_DIRECTORY_NAME> on your preferred browser.
8. Navigate to localhost/onlinebankingsystem/
9. There you can login as a customer. In our database we have added a demo customer whose credentials are
Username : muskaandps@gmail.com
Password: changed
10. Once you log in you can see account summary , access features and process requests
11. Navigate to localhost/onlinebankingsystem/adminlogin.php
12. There you can login as an admin. The credentials are :
Username:admin
Password:changed
13. Upon login you can add/edit/delete staff and customer accounts.
14. Navigate to localhost/onlinebankingsystem/staff_login.php
15. To login as staff we have created a demo user with credentials:
Username: staff@gmail.com
Password: password
Upon logging in as a staff we can approve all the beneficiary,atm, cheque book requests.
